

Multi-Regional SGNA Conference

"GI Education - Racing Toward the Finish Line"

October 21-22, 2017

at the

Drury Plaza Hotel

9825 North Meridian Street

Indianapolis, IN 46290

In 1993 five Midwest SGNA regional societies (Central Illinois, Chicago, Indiana, Michigan, and Ohio) collaborated to offer an educational and networking opportunity in the form of a two day conference event in the fall of the year opposite the Annual Spring National SGNA Conference and Convention. This event developed as a result of wanting to help meet the continuing needs of those involved in the field of Gastroenterology who were seeking to enhance their profession and further their education. The goals of this conference event are:

- To offer a conference that is similar to SGNA for people to attend that is not cost prohibitive
- To offer a format for regional societies to come together and work together
- To network and share ideas with others involved in the field of gastroenterology medical care, education, and research.

The following year, Wisconsin SGNA joined the network of regional societies and in 1996 Central Kentucky SGNA joined. From 1999 through 2013, seven regional societies (Central Illinois, Chicago, Indiana, Kentucky, Michigan, Ohio, and Wisconsin) made up the regional network.

Today, four remaining regions offer a conference with the sole purpose of providing current trends in the field of gastroenterology, enabling nurses and associates to understand the expanding role of health care professionals relative to education and technical skills required to maintain a high standard of practice.

We want to take a moment and thank all of the past Multi-Regional SGNA planning committee members for the time they invested in making this conference successful for twenty-five years. There have been many friendships formed here and many great memories made. We also want to thank you, the attendee for your support and attendance and hope that you enjoy the conference.

The 2017 Multi-Regional SGNA Planning Committee

2017 Multi-Regional Planning Committee

Indiana Region, Hosting

Susan Selking, Chairperson
Michelle Tying
Michelle Noble

Central Illinois Region

Annett Schmit

Vendors

1. Abbvie
2. Aries Pharmaceuticals
3. Boston Scientific
4. Cook Medical
5. Cygnus Medical
6. ERBE
7. Diversatek Healthcare/Medovations
8. Indiana University Health Home Care
9. Given Imaging/Medtronic
10. Johnson & Johnson/Advance Sterilization
11. LogiQuip
12. Medivators
13. Olympus
14. Shire Pharmaceuticals
15. TEC Sales
16. US Endoscopy
17. Vortek Surgical

Conference Evaluations

We are using survey monkey for online evaluations.

1. You will have one week to complete the evaluations.
2. There will be a separate evaluation for each day, one for Saturday and another one for Sunday.
3. Once your evaluation has been completed, a certificate will be emailed to you.

Saturday October 21

- 0700-0745 Registration / Breakfast / Visit Vendors
0745-0800 Welcome/Announcements
0800-0900 **Dr. John M. Wo** - Diagnosis and Management of Gastroparesis
0900-1000 **Tammy Richardson BSN** - Quality Indicators in
Endoscopy
1000-1100 Visit Vendor Exhibits
1100-1200 **Dr. Neil Sharma**- Overview Barrett's and Role of EMR
1200-1300 **James Collins BS, RN**- Challenges of Infection Prevention in
the Endo Suite
1300-1345 Lunch
1345-1445 **Dr. Mohammad Al-Haddad** - POEM: A Treatment
Procedure for Achalasia
1445-1545 **Dr. Evan Fogel**- Improving the Safety of ERCP
1545-1600 Break
1600-1700 **Dr. Monika Fischer**- Fecal Transplant: The 5-D
Approach
1700-1715 Survey Monkey evaluation
1715-1730 Indiana SGNA meeting
1745- 1915 Optional Vendor Program

Sunday October 22

- 0700-0730 Registration /Breakfast
0730-0830 **Beth Yeadon BSN and Eva Burgan BSN**-
Navigation 101
0830-0930 **Dr. Charles Kahi**- Complex Polypectomy
0930-0945 Break
0945-1045 **Michele Tyring BSN, RN, CGRN**- Make a Difference for
Digestive Disease Patients
1045-1145 **Dr. Jeffrey Easler**- Endoscopic Management of
Pancreatic Fluid Collection
1145-1200 Survey Monkey evaluation

-----Speakers-----

Dr. John M. Wo

Professor of Medicine

Division of Gastroenterology/Hepatology

Rm 1634 IU Hospital

550 University Blvd

Indianapolis, IN 462

Objectives:

- To understand the various clinical manifestations in patients with gastroparesis.
- To develop a diagnostic and treatment options for patients with gastroparesis

----- Notes -----

Notes

Tammy Richardson BSN, RN, MHA
Director Surgery Center

VEI Endoscopy Director
8315 E. 56th St., Suite 100
Indianapolis, IN 46216

Objectives:

- Define the Similarities in Inpatient and Outpatient Endoscopy
- Define the Differences in Inpatient and Outpatient Endoscopy
- Discuss Quality Indicators in Endoscopy and their Importance

----- Notes -----

Notes

Dr. Neil R. Sharma

Director Interventional Endoscopy and Endoscopic Oncology

11109 Parkview Plaza Dr.

Fort Wayne, IN 4684

Objectives:

- Provide overview of Barrett's Esophagus and its Potential for Adenocarcinoma
- Describe technique of EMR for the esophagus
- Use case based examples of EMR and how it may be applied in Barrett's Esophagus and Esophageal Cancer

----- Notes -----

Notes

James Collins BS, RN CNOR
Accreditation Nurse

Cleveland Clinic
Cleveland, Ohio 44195

Objectives:

- Discuss recent events related to Infection Control and prevention in Endoscopy
- Review Guidelines related to Infection Prevention in Endoscopy
- Present solutions for preventing infection transmission related to reprocessing endoscopes and accessories

----- Notes -----

Notes

Dr. Mohammad Al-Haddad
Faculty-Gastroenterology

Indiana University Health
12207 Frenzel Pkwy
Carmel, IN 46032

Objectives:

- Assess the underlying pathophysiologic mechanisms of achalasia
- Discuss the technical aspects of the POEM procedure
- Describe the impact of POEM on patients' symptoms and esophageal motility

----- Notes -----

Notes

Dr. Evan Fogel MSc, FRCP(C)
Professor of Medicine

550 N University Blvd Suite 1602
Indianapolis, IN 46202

Objectives:

- List and understand the etiology of potential complications of ERCP
- Understand the strategies employed to reduce the risk of post-ERCP pancreatitis
- Gain an appreciation of recent and ongoing research aimed at improving the safety of ERCP

----- Notes -----

Notes

Dr. Monika Fischer MSC
Physician

Indiana University Health
550 N University Blvd
Indianapolis, IN 46208

Objectives:

- Decide when FMT is the appropriate course of treatment
- Explain the process of FMT
- Summarize the 5-D approach and Q&A

----- Notes -----

Notes

Beth Yeadon BSN, RN, OCN, ONN-CG
GI/Colorectal Oncology Navigator

Community Hospital
McCordsville, IN 46055

And

Eva Burgan BSN, RN, OCN
Oncology Nurse Navigator

Hendricks Regional Health
Danville, IN 46

Objectives:

- Discuss evolution of the navigator role on the health care team
- Define the role of the oncology nurse navigator
- Identify benefits to patient experience and increased quality of care through collaborative relationships between nurse navigator and other members of healthcare team (endoscopy nurses)

----- Notes -----

Notes

Dr. Charles Kahi

GI Section Chief Professor of Medicine

Roudebush VAMC Indiana University

1481 W 10th street

Indianapolis, IN 46202

Objectives:

- Learn the appropriate indications for advanced polypectomy
- Learn how to predict endoscopic resectability of complex polyps
- Review endoscopic techniques to optimize effective and safe resection of complex polyps

----- Notes -----

Notes

Michele Tyring BSN, RN, CGRN
RN Senior Partner

IU Health University Hospital
Indianapolis, IN 46224

Objectives:

- Discuss the Digestive Disease National Coalition (DDNC)
- Define advocacy and state its importance

----- Notes -----

Notes

Dr. Jeffery Easler
Assistant Professor of Medicine

Indiana University Health
Indianapolis, IN 46202

Objectives:

- Understand the clinical features and nomenclature for pancreatic fluid collections that complicate pancreatitis
- Identify the indications for minimally invasive drainage of pancreatic fluid collections
- Understand the options for, techniques and potential complications of endoscopic management of fluid collections that complicate acute and chronic pancreatitis

----- Notes -----

Notes
